## **Zip Code Location Of Its Faith-Based Communities Across the United States**

**Minority Quality Forum  
Dr. Gary Puckrein**

We are currently working with Dr. Puckrein in creating a map of the country noting the area code location of our 34,000 churches in relationship to chronic disease states that effect both Americans and African-Americans in those particular zip codes in each of the 50 states. This type of clinical trials mapping will help us to identify where our members are and what chronic disease states they are currently suffering from. We are also going to be mapping by the location of the street the church is on.

Dear Dr. Puckrein,

We have compiled the zip codes of the locations of all NBCI member churches for the use of clinical data that you see fit.

We are writing to introduce ourselves and our Health Emergency Declaration (HED) program to you. The National Black Church Initiative (NBCI) is a faith-based coalition of 34,000 churches comprised of 15 denominations and 15.7 million African Americans working to eradicate racial disparities in healthcare, technology, education, housing, and the environment. NBCI's mission is to provide critical wellness information to all of its members, congregants, churches and the public. Our methodology is utilizing faith and sound health science. We foresee any partnership as another component of addressing the urgency of health needs highlighted by the HED.

As part of the HED we've partnered with many organizations such as biopharmaceutical companies to address specific diseases such as COPD, multiple myeloma, prostate and breast cancer. We've also partnered with organizations such as CVS Pharmacies to focus on smoking cessation. We believe a partnership with you can also lead to reduction in health problems within the African American community.

A key component of addressing health issues is prevention, including proper nutrition and diet. Almost daily we here on the news that obesity is a primary cause for a wide range of diseases from diabetes to cancer to heart disease. Expert after expert appears on daily news programs saying sugary drinks are one of the major sources of the obesity epidemic and the solution is simple – drink more water.

We are looking to partner with you to get this message of good health and proper diet and nutrition to our congregations. I know that with your help we could create programs and materials that will not only reach, but influence, millions of African Americans and change poor habits and behavior.
