

The National Black Church Initiative Has Decided Not to Support Amanda Hollowell For Congress Based on Four Major Policy Issues

WASHINGTON, DC, UNITED STATES, October 21, 2026 /EINPresswire.com/ -- The [National Black Church Initiative](#)¹ (NBCI), a coalition of 150,000 African American and Latino faith communities representing 27.7 million members, has decided not to support Amanda Hollowell over four major policy issues. We cannot support her position on abortion, reparations, transgender issues, and the economic outlook for African Americans in the age of AI in Savannah and the surrounding counties.

Ms. Hollowell's biography is substantially incomplete. Because she is not a Savannah native, she may not fully understand the issues that matter most to Savannah residents. Many of us view her as a conventional Democratic

spokesperson and believe the Democratic Party recruited her to advance its agenda. She is a plant by the radical left.

Rev. Anthony Evans, President of the National Black Church Initiative: "Most Black Politicians truly

believe they are above moral scrutiny and the black Church will ignore that

immoral and harmful public policy positions that will harm both the church and the black community. Those days are over! Anmada will impose the democratic immoral positions if elected.

DO NOT ELECT HER! Amanda Hollowell policies will harm the black religious community and black people in general. Malcom X and Martin did not die, so this woman can advocate killing black babies wholesale- She is a baby killer"

* Abortion- she will follow the Democratic playbook to allow women to kill babies on demand. The Black Church is in the business of protecting all of God's children.

* Reparations- The Black church demands reparations now. Amanda is afraid to say the word

* Transgender issues- She will promote transgender rights over the rights of Christians, even though we love our gay brothers and sisters.

* Economic outlook for African Americans in the age of AI- She simply does not understand the complexities and has no plan or policies to help keep African Americans employed in the age of AI.
